

Korasit[®] KS

Wood preservative for use in accordance with DIN 68 800-3

1. Product Description

Registration Number	Z-58.1-1423
Test ratings	P Iv W E
General Buildings Inspection Authorisation	Deutsches Institut für Bautechnik, Berlin (German Institute for Structural Engineering, Berlin)
Quality Control	Materialprüfanstalt Eberswalde (Eberswalde materials testing institute)
Product Type	Water-soluble, liquid, fixative, chromate and boron-free wood preservative based on copper complex compounds and a highly effective quaternary ammonium compound. For wood treatment only in accordance with these instructions.
Active Substances	15.2 % (m/m) copper hydroxide carbonate 8.4 % (m/m) N, N-didecyl-N-methyl-poly-(oxethyl) ammonium propionate
Effect	Preventive protection of timber against wood-destructive fungi (basidiomycetes and soft rot) and insects (house longhorn, woodworm). Particularly effective against brown rot (poria). In addition, Korasit KS has the so-called "Sirex authorisation" from the Australian import authorities (AQIS) and has also been tested for its effectiveness against termites. Difficult to leach out after fixing in the timber, weather-resistant, plant-compatible.
